Case No.: 56059US009

Amendments to the Claims

Please cancel unelected Claims 16-19. Please amend claim 14 and 15 and add claims 40-49 as follows:

1-13 Cancelled

- 14. (Original) An optical element having a surface treatment comprising a fluorochemical compound having the general formula (C_nF_{2n+1})-X wherein n [[is about]] ranges from 1 to 4 and X is a polar group or polar group-containing organic radical selected from the group comprising sulfonic acids and salts thereof; sulfonamides, sulfonimides and salts thereof; amides, silanes, and mixtures thereof.
- 15. (Original) An optical element having a surface treatment comprising a fluorochemical compound having the general formula (Cn P2n+1)-X wherein n [[is about]] ranges from 1 to 4 and X is a polar group or polar group-containing organic radical; and wherein said compound is free of heavy metals and transition metals.

16-22 Cancelled

- 23. (Original) A pavement marking comprising a liquid binder and a multitude of the optical clements of claim 14.
- 24. (Original) A pavement marking comprising a liquid binder and a multitude of the optical elements of claim 15.
- 25. (Cancelled)
- 26. (Original) The pavement marking of claim 23 wherein the optical elements are embedded in the binder at a depth of about 40-70% of their diameters.

Case No.: 56059US009

- 27. (Original) The pavement marking of claim 24 wherein the optical elements are embedded in the binder at a depth of about 40-70% of their diameters.
- 28. (Cancelled)
- 29. (Original) A reflective sheeting comprising:
 - a) a top coat layer having an exposed surface;
 - b) a binder layer disposed on the exposed surface of the top coat layer;
 - c) a multitude of the optical elements of claim 14 disposed in the binder layer;
 - d) a space coat layer disposed on the binder layer; and
 - e) a reflective layer disposed on the space coat layer.
- 30. (Original) A reflective sheeting comprising:
 - a) a top coat layer having an exposed surface;
 - b) a binder layer disposed on the exposed surface of the top coat layer;
 - c) a multitude of the optical elements of claim 15 disposed in the binder layer;
 - d) a space coat layer disposed on the binder layer; and
 - c) a reflective layer disposed on the space coat layer.
- 31. (Cancelled)
- 32. (Original) The reflective sheeting of claim 29 wherein the optical elements are embedded in the binder at a depth of about 40-70% of their diameters.
- 33. (Original) The reflective sheeting of claim 30 wherein the optical elements are embedded in the binder at a depth of about 40-70% of their diameters.
- 34. (Cancelled)
- 35. (Original) A rear projection screen comprising a transparent substrate and the optical elements of claim 14 embedded in an opaque binder matrix and wherein said optical elements are in contact with the transparent substrate.

Case No.: 56059US009

36. (Original) A rear projection screen comprising a transparent substrate and the optical elements of claim 15 embedded in an opaque binder matrix and wherein said optical elements are in contact with the transparent substrate.

37. (Cancelled)

- 38. (Original) The reflective sheeting of claim 35 wherein the optical elements are embedded in the binder at a depth of about 40-70% of their diameters.
- 39. (Original) The reflective sheeting of claim 36 wherein the optical elements are embedded in the binder at a depth of about 40-70% of their diameters.
- 40. (New) A reflective article comprising a binder and optical elements wherein the optical elements comprise a surface treatment comprising at least one fluorocarbon compound wherein said compound is free of perfluoroalkyl groups having more than four carbon atoms.
- 41. (New) The reflective article of claim 40 wherein the optical elements are embedded in the binder at a depth of about 40-70% of their diameters.
- 42. (New) The reflective article of claim 40 wherein the optical elements have refractive index of at least 1.5.
- 43. (New) The reflective article of claim 40 wherein the article is a pavement marking.
- 44. (New) The reflective article of claim 40 wherein the article is a retroreflective sheeting.
- 45. (New) The reflective article of claim 40 wherein the article is a projection screen.

4

Case No.: 56059US009

46. (New) The reflective article of claim 40 wherein the surface treatment comprising a polyfluoropolyether compound having at least one polar group or polar group-containing organic radical.

47. (New) The reflective article of claim 40 wherein the surface treatment has a concentration of less than about 100 ppm.

48. (New) The reflective article of claim 14 wherein n is 4.

49. (New) The reflective article of claim 15 wherein n is 4.
